Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

The Examiner is in receipt of applicant's response to office action mailed 3/11/2005, which was received 8/11/2005. Acknowledgement is made to the amendment to claims 1 and 14, leaving claims 1-27 as pending in the instant application. The applicant's amendments and remarks have been carefully considered and were found to be persuasive, however the after further consideration a new grounds of rejection necessitated by amendment follows:

Examiner's Note

Examiner has cited particular columns and line numbers or figures in the references as applied to the claims below for the convenience of the applicant. Although the specified citations are representative of the teachings in the art and are applied to the specific limitations within the individual claim, other passages and figures may apply as well. It is respectfully requested from the applicant, in preparing the responses, to fully consider the references in entirety as potentially teaching all or part of the claimed invention, as well as the context of the passage as taught by the prior art or disclosed by the examiner.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the

Art Unit: 3625

invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-10,13- 23, and 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hartman (US 5960411) in view of Rhoads (US 6,311,214).

In regards to claims 1,4,5,6,9,10,14,15,17-19,22 and 23, Hartman discloses all the features of the instant claims except the use of a bar code. Hartman teaches inputting an identifier stored on a client system to activate stored profile information on a remote server (see summary), but does not specifically mention that the information is on a bar code. Rhoads teaches storing an identifier (col 42, lines 60-67) on a bar code (col 35, lines 4-6). It would have been obvious to a person having ordinary skill in the art at the time of the invention to include in Hartman the use of a bar code encoded with an identifier as taught by Rhoads, because this would enable portability to the user when shopping on a different computer (Rhoads, col 2, lines 20-25).

In regards to claims 3 and 16, the combination of Hartman and Rhoads teaches transferring information over a network, but does not specifically mention that a telephone switched network is used (Rhoads col 3, lines 45-55).

In regards to claims 7,8,20, and 21, the combination of Hartman and Rhoads teaches the use of cryptology to protect data (Rhoads, col 10, lines 1-8)

In regards to claims 13 and 26, the combination of Hartman and Rhoads teaches that the bar code is placed on a credit card (Rhoads, col 1, lines 35-40).

Claims 11,12,24,25, and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hartman (US 5960411) in view of Official Notice.

In regards to claims 11,12,24,25, and 27, the combination of Hartman/Rhoads teaches the instant claims except for the various location cited by the instant claims where the data is stored at various locations. However, it would have been obvious to one having ordinary skill in the art at the time the invention was made to place the database at a convenient location suitable to the usage environment, since it has been held that rearranging parts of an invention involves only routine skill in the art. *In re Japikse*, 86 USPQ 70.

Response to Arguments

Applicant's arguments with respect to claims 1-27 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
